## ABOUT THIS GUIDE

This is a rather short guide to SEO. It aims to show you what still works in 2014 and how you should be working to get your website to the top of popular search engines. Follow these steps and you will be a success\*. Or your money back, guaranteed.

# GET LINKS !

It's still as simple as you may think.

Yes, just do it. The secret sauce is still based a lot on links. Get some and you soon see that your website will start to rank. Links can

be from news or supplier websites, social websites, etc. Any quality website will do. Just get links.
